

Three Magic Words
Kimbo Tippett

Three Magic Words not often heard
Three words that help you grow
Increase the things you know
Help you to understand
You know you can expand.
Three simple words can help you be strong.
These powerful words are, "I was wrong".

Three Magic Words not often heard
No one is always right.
You've got to love the light.
You better realize
You need to leave the lies.
Take these words. Hear this song.
All must say, "I was wrong".

What I had to do for my sadness to be gone
Had to make friends with the words, "I was wrong".

Three Magic Words rarely are heard.
It's time to face the facts.
It's time for you to act.
Can you look in the mirror
And not be filled with fear?
You better not wait too long.
Time to say the words, "I was wrong".
